AJJARAPU PRANEETH SAI SRITHIKANTA

Hyderabad ♦ +91 9391100191 ♦ praneethsaiajjarapu@gmail.com ♦Linkedin ♦ GitHub

PROFESSIONAL SUMMARY

Computer Science undergraduate with strong fundamentals in data structures, DBMS, and backend development. Experienced in designing REST APIs, modular backend architectures, and integrating ML-driven systems into production-ready applications.

SKILLS

Languages: Java, JavaScript, Python
Frontend - React.js, HTML, CSS
Backend- Node.js ,Express.js FastAPI
Databases- MongoDB,My SQL
Core Concepts: REST API Design , JWT Authentication, DBMS, Data Structures & Algorithms

PROJECTS

LegalSeg | MERN Stack + NLP | Github | Live Demo

• Built modular REST APIs using Node.js & Express with JWT authentication and centralized error handling.
• Integrated transformer-based NLP pipeline via asynchronous polling (~15–20s avg process per document).
• Designed MongoDB schema for document storage and prediction metadata with user-linked querying.
•Designed responsive React frontend with dynamic role-based sentence rendering and structured result visualization.
• Deployed backend Render and frontend on Vercel,achieving <1s response time for non-ML endpoints during local testing.

SceneSolver | React + FastAPI + MongoDB | GitHub | Live Demo

•Developed FastAPI backend for image upload and ML inference workflow using Vision Transformer and YOLOv8 (~12–13s prediction time per image).
• Designed REST endpoints for authentication and result retrieval (~1s average response time).
• Built interactive React UI for evidence upload and real-time prediction display.
• Implemented end-to-end pipeline from file upload to structured MongoDB persistence.

Diwali Web App | React + Tailwind CSS | GitHub | Live Demo

• Built interactive quiz-based web application generating personalized greeting cards based on user responses.
• Designed responsive UI with dynamic state handling and reusable components.

EDUCATION

B.Tech: Computer Science & Engineering(2023-2027)
Keshav Memorial College of Engineering (KMCE)- Hyderabad
Relevant Coursework: Data Structures & Algorithms, DBMS,Operating Systems, Software Engineering.

CERTIFICATIONS

• Generative AI Certificate – KMCE Project School (2025) Credential
• Oracle Cloud Infrastructure 2025 Certified Generative AI Professional Credential
